For any given index

Check the data

```
ggplot(dat, aes(time, fixations, color = group)) + geom_point()
```

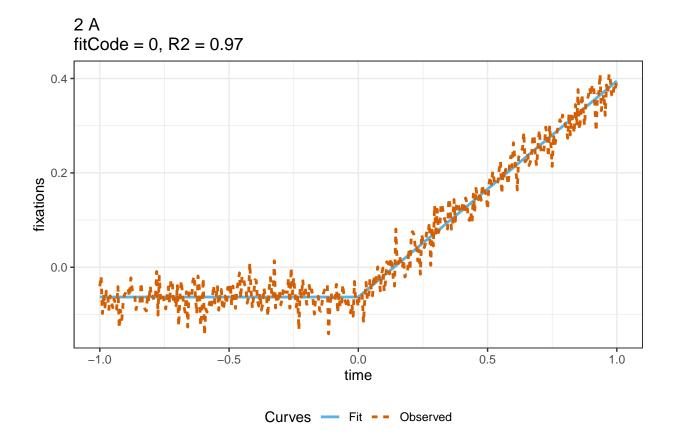

See if the generated line looks good

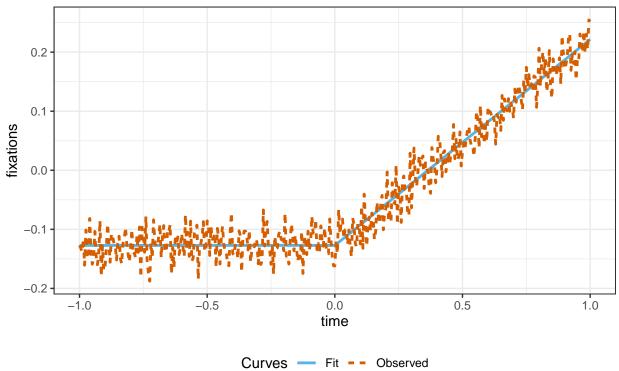

Curves — Fit - Observed

plot(fit[2,])

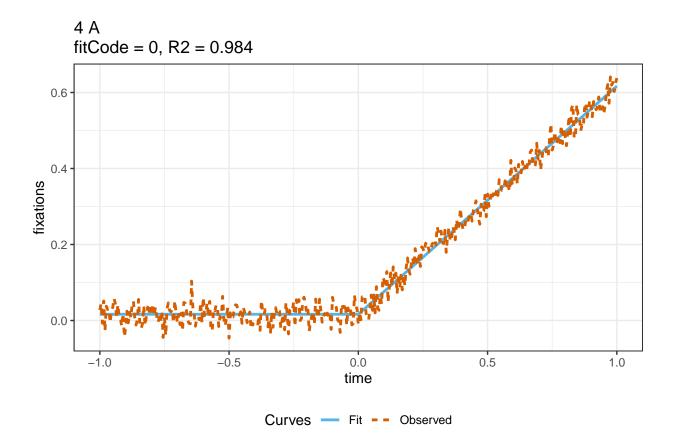

plot(fit[3,])

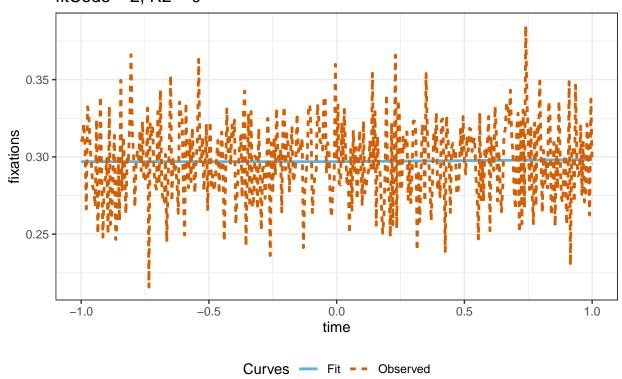

## plot(fit[4,])

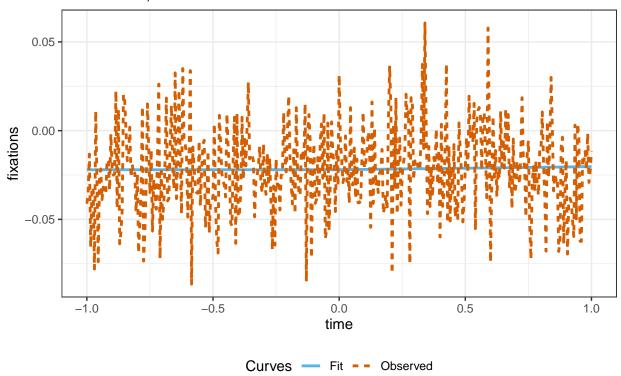

# GROUP B
plot(fit[26,])

26 B fitCode = 2, R2 = 0

plot(fit[28,])

28 B fitCode = 2, R2 = 0.001

# all the B's kinda look the same
